ARCHITECTURAL AGGREGATES

PREMIUM AUSTRALIAN RECYCLED SHELL AGGREGATES

Sea Land Solutions Architectural Aggregates are premium recycled shell products for decorative finishes and bespoke surfaces. Washed, crushed and graded in Australia, they reveal the natural texture and tonal variation of oyster shell while providing a distinctive material for high-end architectural applications.

REFINED

3–4 mm

Controlled, visible shell texture for decorative renders and refined architectural finishes.

STATEMENT

5–6 mm

More pronounced shell inclusions for expressive decorative finishes and bold surface character.

FEATURE

6–20 mm

Larger shell fragments suited to hand placement and feature detailing in decorative render applications.
